

Race Procedures for Southern Super Series Mobile 300

Qualifying (order determined by draw)

- Everyone will get two timed laps.
- Once you have taken the white flag, you have an official time. No re-qualifying.
- If you miss your turn in line, you will only get one lap. • Starting lineup will be straight-up by qualifying times.

Race – 300 laps. Caution laps count. Twelve tires allowed. The original start is at the designated line in turn 4. If we do not finish a green lap, there will be a complete restart with cars that pit or receive assistance on the rear.

- Caution flag – Stay in line. To settle position disputes we will revert to the last green lap on the scoring monitor. Pace car will pick up field. Pits will be closed until correct running order is determined. When pits are opened, follow pace car to start-finish line. If you pit out of order or early, restart tail end of line. Must pit on lap pits are opened to retain position. Controlled caution procedures may only be used between laps 50 and 280. There must be at least 25 laps completed between controlled cautions. When the pits open, the lap count will stop for 3 laps. Cars will return to the track in the same order they were running at the time of the caution, but behind those that did not pit. Any car involved in the cause of the caution will go to the rear. If 50 consecutive green laps are completed, a competition caution will be displayed. No competition caution will occur after lap 280.
- Red flag – Stop behind pace car. Pits are closed. When track is cleared, field will move under yellow. Pits will open. If pit stop is made under red, restart tail end of line. After a red flag the lap count will not resume until the green flag is displayed.

- **Restart – All restarts will be double file. At the 1 to go signal, lapped cars will move to the rear of the lead lap cars. The 1st car a lap down when the caution fell will be given a ‘free pass’ around the pace car and credited with a lap. Also, any cars behind the pace car that are on the tail end of a lap will be given a ‘wave-by’ until the leader is the first car behind the pace car. The leader may then choose to restart on the inside or the outside. From third place on back the rest of the cars will alternate inside and outside lanes. When leader gets to the designated line in turn 4, he can go. Everyone should remain in their lane until the start-finish line. Note: No ‘free-pass’ will be given after lap 290, or if the designated car was involved in the cause of the caution.**

- **Finish – There must be 5 green laps after lap 295. These laps do not have to be consecutive. After the white flag is out, the next flag is the checker. If there is problem, the yellow light will come on along with the green. Race to the finish. If the track is blocked, the red will come out and we will finish green/white/checker.**
